## STABLE DOOR

Whether for practical reasons or to maintain a traditional appearance, we sometimes need an alternative solution.

The Ultimate Stable Door offers all that you would expect from a stable door but with the added security and weather-proof seals associated with PVC-u.

Fitted with security locks to both top and bottom sashes, the door can be opened fully or with the top sash independently.

Smart lever/lever handles that include cylinder locks ensure your ultimate security.

Choose from a range of colours and woodgrain effect foils to complement your home.

As with traditional entrance doors, Georgian Bars can be added to complete the cottage style appearance.

Traditional Aesthetics  
with modern benefits

Smooth
